

# POWERFUL PRESENTATIONS COACHING: Speak to Be Remembered

What if you could stop dreading public speaking and start looking forward to it?

What if you could help people by being your authentic self on stage or online?

People First Elevation Team partners with you to elevate your mission through speaking!

## How Does Powerful Presentations Coaching Work?

It's as simple as 1-2-3. We:

1. **Start** with a **discovery call** to understand your speaking "why"
2. **Create** a **coaching program** specifically for your needs
3. **Meet** on a schedule to **build your confidence**, technique, delivery, and messaging

## What's In It For You?

Unique voices make presentations **more interesting** and deliver **greater impact**. People-First Coaching unleashes your potential and **boosts your visibility** by leveraging your strengths. Gain the **confidence** to shine whenever you step into the spotlight.

**Rather than conform to a set of speaking standards, our coaching helps you play to your strengths and increase your visibility.**

## Skills we cover:

- Managing public speaking fears and anxiety
- Increasing confidence
- Strengthening your voice
- Delivering successful online presentations
- Powerful presentation openings and closings
- Creating messages and stories that stick
- Tips for remembering content
- Preparing you for an important event

# We Help You Transform Workplace Events from Missed Opportunities to Meaningful Experiences

A powerful presentation requires more than standing on a stage with prepared notes. Whether in a meeting, online, or in front of a crowd, we must communicate effectively for our ideas to inspire a call to action.

Our Powerful Presentations Coaching Program centers on “whole-person” presentations - making use of your authentic voice, body language, and imagination to persuade your audience and serve your mission.

**PEOPLE FIRST**  
ELEVATION TEAM

We help you transform your company-wide events from missed opportunities to meaningful opportunities. We partner with your organization’s leaders to ensure your events align with your engagement goals. We help you plan, create, and implement highly memorable meetings that leave people inspired and knowing that they matter.
